The six men, including the two prisoners, and the seven horses were all killed at the first volley. Comrade, Paige, feeling that his horse was struck, cleared his feet from the stirrups and sprang for the other side of the road from which the volley came. While in the air they fired another volley, one shot of which took effect, the ballet striking him in the left hip, breaking the bone and entering his bowels, finally lodging between the bladder and kidneys. The firing party, seeing him fall, and not finding him in the road with the balance of the men, looked for him in the bush by the roadside to finish the bloody work so well begun; but be fell between the tranks of two dead trees, and the bush hid him from their sight as completely as though a curtain had been drawn over him. The reading of this satire upon the rules was greatly enjoyed by the Members; but Mr. Reed (Me.) found fault with the resolution in that it did not provide that the committee should be permanent to treat with each Member as he made his appearance.

The Speaker ruled that the resolution did not present a question of privilege. The count was then proceeded with, The tellers remained at their posts until 1:40

FRIDAY, JAN. 11. The Senate resumed the consideration of the tariff bill at 11 o'clock, the question being upon the motion of Mr. Plumb (Kan.) to place on the free list frozen fish or fish packed in ice. A long debate followed, in which the Kansas Senator made a vigorous speech in support of his amendment, referring to the manifest injustice of admitting fresh fish free to be used by the citizens of the coast and Lake States, while people in the interior are compelled to pay a duty on ice-packed or frozen fish. He also suggested rather pointedly that New England inconsistently favored protection or free

These remarks stirred up the Massachusetts Senators, Mr. Hoar in particular. Messrs, Dawes with Canada and an amalgamation of all the hysical forces of the continent between the Gulf and the Pole, Mr. Hale's (Me.) amendment making the rate of duty one-half cent per pound on fish was finally adopted.

The bill was considered throughout the day, and it was announced that the end would probably be reached on Saturday. The Senate adjourned at 5:30 o'clock p. m.

In the House, as soon as the Chaplain had closed his prayer, Mr. Weaver (Iowa) came forward with a motion that when the House adjourn to-day it be to meet on Monday next. Mr. Crisp (Ga.) and Mr. Weaver were appointed tellers and the count proceeded slowly. While it was being taken, an earnest consultation was held at the Speaker's desk, participated in by the Speaker, Messrs. Randall, Mills, Dockery, McCreary and McShane. As a result of this conference, and after the count had proceeded for half an hour without a quorum making its appearance, Mr. Randall demanded the yeas and nays and they were ordered, the motion having been defeated—yeas, 2; nays, 228. Mr. Weaver moved to take a recess until 1:30, but he was checked by Mr. Randall with a point of order. The evening session was devoted to the consideration of private pension bills, quite a number of which were passed, the Honse adjourning at 10 o'clock p. m.

SATURDAY, JAN. 12. In the Senate, after the usual routine morning business, the Senate resumed consideration

of the tariff bill at section 2491, the first of the administrative sections. In the course of the reading Mr. Morgan (Ala.) sent to the Clerk's desk an amendment, which he proposes to offer to the bill at the proper time. It reads: All laws and parts of laws which exempt from the payment of duties any articles of commerce upon which duties are imposed in this act, when in transit through

There were but a few changes (and those only as to phraseology) made in the administrative sections, and the reading of the bill was finished at 1:45.

Then Mr. Allison (Iowa) went back to section 9, as to methylated spirits for use in the arts, (including ribbons), and asked whether that | and had several changes made in the phrasewas the item involved in the suit between Mr. olgy, so as to include other substances for Several other unimportant changes were also made, and the Senate adjourned at 4 o'clock

Mr. Payson (Ill.) moved to recommit the resolution, with instructions to report it back Mr. Randall raised the point of order that the instructions were not germane to the subject matter of the resolution, and the Speaker

sustained the point of order. Mr. Cannon (Ill.) favored the resolution, and said that since the adoption of the 5 o'clock adjournment rule many members, knowing that the House would not sit after that hour, were in the habit of leaving at 4 o'clock, thus leaving the House without a quorum. That, for some days past, the business had been obstructed by one man, and to put a stop to this, he was prepared to go even further than the resolution. Mr. Reed (Me.) also favored the resolution, and spoke at some length upon the necessity of something being done to allow the majority, who were responsible for legislation.

The House then proceeded to the consideration of business pertaining to the District of Columbia, and at 5:30 o'clock p. m. adjourned.

Those residing in Dubuque were correspondingly angry, and made every effort to have the picture removed from the streets where it was suspended, but the boys were firm, and like the flags, it did not go
